

MATRIX KALEIDOSCOPE

Musings by the Director

Dear Students, Teachers, and Parents,

Every new year is a year of new beginnings and new hopes for the MHS Family. As we look over the hills in our school background to mark the start of a new academic year, a palpable energy resonates across our campus. It is the hum of possibility, the whisper of ambition, and the vibrant pulse of the ambition of an entire generation. To our students, our dedicated teachers, and our entire MHS team—this moment belongs to all of us.

To our students, I want to share a truth that is rarely spoken: it is okay to feel uncertain. It is okay to be anxious. The journey ahead is vast, and every great adventure begins with a moment of apprehension. I still remember the time when we thought about the idea of Matrix, and see where we are today! My generation had mountains to climb. Being at MHS, you already have a head start, and hence even moons and stars are in your reach! You are the inheritors of an age of endless knowledge. The limits that once existed are now nothing but a distant memory of the past.

And to our teachers and the entire MHS team, your commitment is the bedrock of this institution. You are not just educators; you are sculptors of minds, architects of character. Your tireless dedication is what transforms a building into a sanctuary of learning. You are the guardians of our mission, the very heart of this school. I want to thank each of you for your efforts. I have no doubt that together, we will keep marching ahead.

Together, as one MHS family, let us remember that our purpose extends beyond textbooks and grades. It is about fostering courage, igniting curiosity, and cultivating compassion. You are here because you are exceptional, and I am filled with an immense pride that words can barely capture. The future of Sikar, and indeed, the world, will be shaped by the very hands that walk these halls. Let us embark on this year with an unwavering spirit. The best is yet to come.

Warm regards,
Mr. Kapil Dhaka (Director)

Celebration of Independence Day

Our school proudly celebrated Independence Day with great enthusiasm and patriotic spirit. The event began with the flag hoisting ceremony, conducted by our respected Principal Ma'am and the Management Team. Everyone present sang the National Anthem, filling the atmosphere with pride and devotion.

The program was graced by the presence of all coordinators and teachers, who encouraged the students with their support and participation. Under the able guidance of Activity In-Charge, Ms. Monika, Dance Teacher Mr. Shashank, and Drama Teacher Mr. Sourabh, a series of cultural performances was presented by the students.

These included patriotic songs, dances, and speeches that highlighted the true essence of freedom and sacrifice.

The celebration was a memorable occasion that instilled a sense of unity and love for the nation among the students.

Medley of Activities

Janamashtami Celebration: Pinata Competition

On August 16, the primary section students came together to celebrate Janmashtami with a fun-filled piñata competition! The event was very lively, with students enthusiastically participating and

showcasing their skills. The piñata competition was a thrilling experience for all participants. Students took turns hitting the piñata, filled with chocolates, until it broke open, showering them with goodies. The excitement and energy in the room were palpable as students cheered each other on. After a fierce competition, the winners were announced and awarded medals and certificates.

Rashtriya Bal Vigyan Pradarshani

Matrix High School, Sikar, recently organized a Science Exhibition (Rashtriya Bal Vigyan Pradarshani) for its Pre-Foundation students of Classes VI to VIII, where young innovators showcased their creativity through projects such as a waste segregation system, pollution control device, rainwater harvesting model, seed germination experiment, water conservation model, and a working model of lung capacity.

The event was judged by Mr. Om (Coordinator) and Ms. Mitali Pandey (Coordinator), who praised the students for effectively combining scientific knowledge with practical application. With engaging presentations and well-designed models, the participants demonstrated not only technical understanding but also confidence, teamwork, and communication skills. The exhibition reflected the school's commitment to experiential learning, environmental awareness, and nurturing a scientific temper among its Pre-Foundation learners.

मैट्रिक्स स्कूल में 1270 मेधावी विद्यार्थियों को किया सम्मानित

मैट्रिक्स हाई स्कूल, सीकर में कक्षा 9 वीं व 10वीं के स्कूलिंग एवं फाउंडेशन बैच की कॉम्पिटिशन एग्जाम टेस्ट सीरीज एवं विभिन्न परीक्षाओं में उत्कृष्ट प्रदर्शन करने वाले 1270 विद्यार्थियों को संस्था ने मेडल एवं पेन देकर सम्मानित किया, जिसमें प्री-फाउंडेशन के 950 एवं स्कूलिंग के 320 विद्यार्थी थे। इस अवॉर्ड सेरेमनी में उन विद्यार्थियों को पुरस्कृत किया गया जिन्होंने अपनी पढ़ाई, अनुशासन एवं सह-पाठ्यक्रम गतिविधियों में उत्कृष्ट प्रदर्शन किया। संस्था की प्राचार्या राजश्री सिहाग ने विद्यार्थियों को पुरस्कार प्रदान करते हुए कहा कि मेहनत और लगन ही सफलता की कुंजी है। उन्होंने सभी बच्चों को प्रोत्साहित करते हुए संदेश दिया कि वे निरंतर प्रयासरत रहें और अपने माता-पिता एवं विद्यालय का नाम रोशन करें। अभिभावकों ने भी विद्यालय की इस पहल की सराहना की। यह अवॉर्ड सेरेमनी विद्यार्थियों के लिए प्रेरणा और उत्साह का एक यादगार अवसर बन गई।

Raksha Bandhan Celebration

Raksha Bandhan was celebrated very joyously on August 5 in our primary section! On this special day, our students showcased their creativity and enthusiasm by decorating plates and making beautiful rakhis.

Our young artists decorated their plates with vibrant colours, flowers, and other materials, making them look stunning and festive. It was wonderful to see the creativity and effort that went into making each plate unique and special. Some of our talented students also made beautiful rakhis, using threads, beads, and other materials. Their creativity and attention to detail were truly impressive. The Raksha Bandhan celebration was a heartwarming experience. It was a wonderful way to promote sibling love and appreciation.

Commerce Career Counselling Session Inspires Students at Matrix High School

Matrix High School's recent Commerce Career Counselling Session, held for Class XI and XII students, was a resounding success. This single, impactful event seamlessly blended career guidance with practical financial literacy, truly embodying the theme: The right guidance shapes the right future.

A Comprehensive Workshop on Finance and Future Planning.

The session kicked off with a brilliant workshop titled Introduction to Banking and the Art of Personal Finance. It was an honor to host a panel of distinguished Chartered Accountants: CA Niraj Sharma, CA Kanika Khetan, and CA Sumit Tiwari, whose expertise made the day both educational and inspiring.

CA Niraj Sharma demystified the world of banking, breaking down complex topics like different bank accounts, digital transactions, and loans. He masterfully explained how banks are the backbone of our economy, giving students a solid foundation in financial fundamentals.

Next, CA Kanika Khetan took the stage, illuminating the vast career landscape within finance, banking, and auditing. Her insights were invaluable, highlighting the skills needed to thrive in these rewarding professions and inspiring students to consider them as viable career paths.

To wrap it all up, CA Sumit Tiwari delivered a captivating talk on investing. He didn't just talk about saving; he encouraged students to think about strategic financial growth. His advice on starting early and making informed decisions left a lasting impression, empowering students to take control of their financial futures.

The session was a powerful reminder of the school's commitment to nurturing well-rounded students. By bringing such high-caliber professionals to our campus, Matrix High School isn't just focusing on academic excellence; it's providing the timely career direction our students need to succeed in higher education and beyond. Sincere gratitude to our esteemed guests for their time and wisdom—they've truly opened new doors of awareness and aspiration for all.

Krishna Janmashtami Celebration

Matrix High School celebrated Krishna Janmashtami with great joy and devotion. Students from Nursery to Class 12 participated, making the day lively and colorful.

The celebration started with a motivating speech by our respected Principal Ma'am. She encouraged the students to learn important lessons from the life of Lord Krishna. Under the guidance of our Activity In-Charge, Ms. Monika Paliwal, students presented cultural performances such as songs, dances, and short plays based on Krishna's life.

The younger students of the Primary Wing added extra charm to the program with a Fancy Dress Competition. Dressed as little Krishnas, Radhas, and Gopikas, they won everyone's hearts with their innocence and excitement.

The girls from Sarojini Naidu Hostel also put up a wonderful presentation of Jhankis (tableau) showing different stages of Krishna's life. From His birth in prison and butter-stealing adventures to playful moments with Radha and finally the Gita Updesh or Upadesha, the scenes brought Krishna's story alive on stage.

The whole event created a festive atmosphere and reminded everyone of Lord Krishna's timeless values of love, truth, and devotion.

विद्यार्थी जीवन – संघर्ष और सफलता की नींव

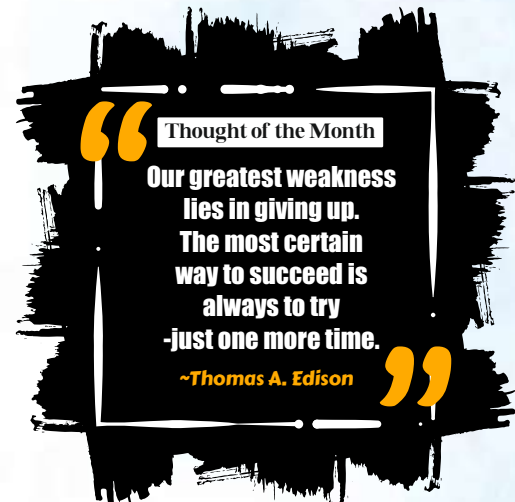

विद्यार्थी जीवन प्रत्येक व्यक्ति के जीवन का सबसे सुनहरा और महत्वपूर्ण चरण होता है। यही वह समय है जब मनुष्य अपने भविष्य की मजबूत नींव रखता है। विद्यार्थी जीवन में प्राप्त शिक्षा, संस्कार और अनुभव आगे चलकर उसे एक सफल नागरिक, योग्य व्यक्तित्व और सशक्त समाजसेवी बनने की प्रेरणा देते हैं।

इस जीवन का सबसे बड़ा आभूषण अनुशासन और परिश्रम है। जो विद्यार्थी समय का सदुपयोग करता है, मेहनत और ईमानदारी को अपनाता है, वही अपने जीवन में ऊँचाइयों तक पहुँचता है। विद्यार्थी जीवन केवल पुस्तकों तक सीमित नहीं होता, बल्कि यह जीवन के आचार-विचार, व्यवहार और कर्मठता को भी गढ़ता है।

जैसे बीज में संपूर्ण वृक्ष की संभावना छिपी होती है, वैसे ही विद्यार्थी जीवन में भविष्य की महान संभावनाएँ छिपी होती हैं। इस समय में विकसित आदतें और मूल्य जीवन भर साथ रहते हैं। अतः विद्यार्थियों को चाहिए कि वे अपने लक्ष्य को स्पष्ट रखें और प्रतिदिन उसकी ओर एक कदम आगे बढ़ाएँ। प्रेरक संदेश विद्यार्थी जीवन में आने वाली कठिनाइयाँ ही आगे चलकर सफलता का आधार बनती हैं। जो विद्यार्थी दृढ़ निश्चय, लगन और संयम से पढ़ाई करता है, वही समाज और राष्ट्र के लिए प्रेरणा का स्रोत बनता है।

इसलिए कहा गया है-

आज का अनुशासित विद्यार्थी, कल का आदर्श नागरिक होता है।

Thomas Edison's quote, "Our greatest weakness lies in giving up. The most certain way to succeed is always to try just one more time," is a powerful statement about perseverance and resilience. He believed that the biggest obstacle to success isn't a lack of talent or resources, but simply the act of quitting too soon.

Edison himself was a living testament to this philosophy. He famously failed thousands of times while trying to invent a commercially viable light bulb. When asked about his failures, he reportedly said, "I have not failed. I've just found 10,000 ways that won't work." His success came not from avoiding failure, but from learning from it and trying again, and again, until he finally succeeded.

This quote serves as a reminder that setbacks are an inevitable part of any journey toward a goal. The key is to view them not as a reason to give up, but as an opportunity to learn and push forward.

CUET RESULT 2025–Celebrating College Allotments

A Proud Moment for Our School

This year's CUET 2025 results have been truly special for us. Our students worked hard, stayed focused, and their efforts have paid off beautifully. The entire school feels proud to see them achieve such wonderful milestones.

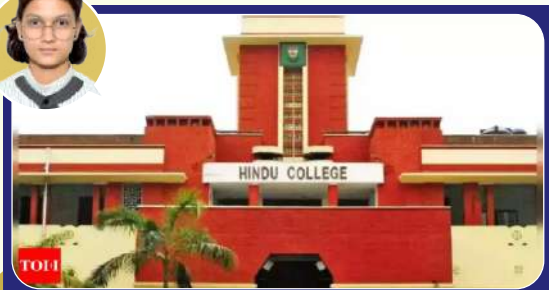

Here's where our students have secured their admissions:

Ankush
Atma Ram Sanatan Dharma College

Yashwant
Rajdhani College

Soniya
Hindu College

Karuna
Miranda House University

Abhimanyu Singh
SGTB Khalsa College

Divya Dudi
Miranda House University

Krishna Jangid
Hindu College

Himanshi Sohu
Kirori Mal College, Delhi

Our Principal Ma'am, Ms. Rajeshree Shihag, along with the school management team, congratulated the students warmly. They wished them success in their new journey and encouraged them to keep moving forward with the same passion and commitment.

Moments like these remind us that dedication and guidance together create success stories. We are confident that our students will continue to shine and make us proud wherever they go.

Athlete's Alley

District-Level Archery Tournament at Matrix High School

Matrix High School, Sikar, had a proud moment on 17th August 2025 when it hosted the District-Level Archery Tournament with great excitement.

The tournament was officially opened by Mr. Subhash Jakhar (National President, SFI), Mr. Mahipal Gurjar (District President, SFI), and Mr. Jagmohan Gurjar. Their presence made the occasion even more special.

Archers from different categories took part and impressed everyone with their skills and determination. The energy and enthusiasm of the players turned the event into a memorable one.

At the closing ceremony, Principal Ms. Rajeshree Shihag and the Management Team awarded Gold, Silver, and Bronze medals to the winners. The proud medalists will now represent the district in upcoming competitions, carrying forward the spirit of Matrix High School.

Triumph and Talent: Matrix at CBSE Game

Our talented students made the school proud with an outstanding performance at the CBSE Games 2025-26. Our talented students brought laurels to the school with their hard work, dedication, and sportsmanship.

At the prize distribution, Principal Ms. Rajeshree Shihag encouraged the winners with her motivating words, praising their dedication and determination. The Management Team also appreciated the efforts of all participants, inspiring them to continue working hard and aiming higher.

The achievements of our young sports stars not only brought glory to the school but also set a shining example of what passion and perseverance can achieve.

Punching Towards Glory: Knocks Out at CBSE Boxing

Matrix High School once again proved its sporting excellence by showcasing an outstanding performance at the CBSE West Zone Boxing Tournament, held from 15th to 18th August at GD School, Bijorawas (Alwar District). With sheer dedication, skill, and sportsmanship, the Matrix champions left a strong mark in the ring, bringing glory to the school.

In the U-19 category, the team emerged as the Championship Winner, securing multiple medals:

U-19 Category	U-17 Category
Uttam – Silver	Ruchika – Silver
Yogesh – Silver	Madhusudan – Bronze
Prince – Silver	Sakarma – Bronze
Himanshu – Silver	Mephram – Bronze
Viraj – Bronze	
Maksood – Bronze	U-14 Category
Nitin Yadav – Bronze	Manu Raj – Bronze

Adding to the pride, five students from Matrix High School have qualified for Nationals in the U-19 & U-17 categories: Ruchika, Uttam, Yogesh Godara, Prince, and Himanshu.

This glorious achievement was made possible under the constant guidance, encouragement, and support of Principal Ma'am and the Management Team, who have always motivated students to pursue excellence in academics as well as sports.

The Matrix family congratulates all the young boxers for their hard work and determination, and wishes the national qualifiers the very best for their upcoming challenges.

Ink & Insights

Our School

The morning bell, a cheerful sound
Students rushing, all around.
Books in hands and dreams in eyes
Hopes as endless as the skies.

Matrix, our place is so bright
Where dreams take wings and futures light.
In every class, in every hall
There lives a spark to guide us all.

Teachers' guide with patient care
Building courage everywhere.
From books to labs, we learn, we try
Reaching goals that touch the sky.

Matrix, with pride we say
It shows us paths, it lights the way.
A school of dreams, both strong and true
Its spirit lives in all we do.

Tushar Godara (X9CN6)

NATURE

Nature is what we see
The hill, the afternoon,
Squirrel, eclipse, the bumblebee, nay,
Nature is heaven.

Nature is what we hear
The bobolink, the sea,
The cricket, nay,
Nature is harmony.

Nature is what we know
Yet have no art to say
So helpless our
Wisdom is to hear simplicity.

Muskan (X9CBI)

DREAMS

Hold fast to dreams
For when dreams die
Life is a broken-winged bird
That cannot fly.

Hold fast to dreams
For when dreams go
Life is a barren field
Frozen with snow.

Neelesh (X9CBI)

CURIOSITY

Curiosity of everything
Is in our minds.
It will bring all the things
Which are behind the magical blinds.
Behind the blinds,
All things are magical.
If we see the things,
Our eyes will be full of kindness.
The curiosity is all beyond the world.
If we take it seriously,
It will show us
The hidden blind world.

Garvit Nama (X8CN2)

My Window Seat

My seat by a little window,
Gives me a momentary escape,
Free from all my worries and sorrow,
Free from this mortal cage.

The light battering of rain,
Brings cascading force to my brain.
Whose toil never seems to stop,
Whose working my heart distraught.

The gentle breeze ruffles my chair,
Bringing coolness to my head.
Those fluffy clouds floating about,
Make me forget all about,
The task on my table today.

But alas!
Like the forward marching
of time till death,
The lesson carries on.
And all the heat and pressure
comes back,
Like a raging thunderstorm.

Daksha Giri (X9AJM2)

आजादी

मिली मुश्किलों से आजादी,
मगर न इसकी कदर हमें।
पड़ आदत आराम की गई,
नहीं देश की फिकर हमें॥

देश की चिंता ना हम करते,
हम भूले जिम्मेदारी।
भोर करेगा कौन यहाँ अब,
है निद्रा सबको प्यारी॥

मरने मिटने की माटी पे,
क्यों तलवार नहीं लेते।
राणा, लक्ष्मी और शिवाजी,
क्यों अवतार नहीं लेते॥

पावन धुन तब आजादी की,
बच्चा-बच्चा गाता था।
बन्दुक खेत में भगत सिंह,
अपने खूब उगाता था॥

अष्टाचार व आरक्षण की
कौन बेड़ियाँ तोड़ेगा।
सर्वोपरी भारत अपना हो कौन,
भला अब सोचेगा॥

देश प्रेम के इस एक कौन को
मिलकर हमें बस चुनना है।
भारत विकसित हो अपना बस,
सपना मिलकर बुनना है॥

मुस्कान (X9CN2)

Book Review - Animal Farm ★★★★★

All animals are equal, but some are more equal than others."

When I first picked up this book, I thought it would be about animals—how they live, how they are treated, and how humans are often cruel to them. But as I went deeper, I realized it is much more than that.

Orwell has used animals to show how humans behave in politics and society. He beautifully explains how revolutions begin with the dream of equality, but slowly become the same system they were fighting against. Only the faces of the rulers change, not the situation.

The book clearly shows how the ruling class cheats the working class. They take their hard work and resources for their own pleasure while the common people are made to believe that they are free and happy—even though they are living like slaves.

My favorite character was Benjamin, the donkey. He stayed neutral, never said much, but understood everything that was happening. I think he represents the people who know the truth but remain silent.

I really admire Orwell for showing the reality of human psychology, politics, and society in such a simple story. For me, this book was an eye-opener.

It will show us the hidden blind world.

Yashaswi (XIORNI)

भारत की बेटियाँ

क्या चाहते हो तुम उन भारत की बेटियों से,
जिन्हे लक्ष्मी मान के पूजा जाता है घर-घर में,
पूजा होती है जिनकी देवी समान समझकर,

क्या शर्म नहीं आती तुम्हें

उसके घरवालों को रोता देख के।

ए जालिमों क्या दिल नहीं है तुम्हारे अंदर,

क्या देखे नहीं तुमने

गाँधी जी के तीन बंदर,

देखकर भी क्या कर लोगे,

जब गाँधी जी बनाना भूल गए वो चौथा बंदर

जो कह सके की बुरा मत करो।

जरा भारत की ओर अपना कदम बढ़ा लो,

इस भारत को आज़ाद बना लो,

पर ये भारत आज़ाद तभी होगा,

जब भारत की बेटियाँ आजाद होगी।

और भारत की बेटियाँ आजाद तभी होगी,

जब दिल होगा तुम्हारे अंदर।

महा नंदवाल (X9CN6)

Educator's Edge

Balance of Body and Mind

The world is constantly becoming competitive, and students find themselves surrounded by books, exams, assignments, and much more. As their academic performance is very important for them to survive in this competitive world, knowledge of health is also very necessary.

As students, we often neglect the important part of our life, which is being physically and mentally fit. A student who isn't fit cannot perform his or her best academically.

As the Roman poet Juvenal said, "A healthy mind resides in a healthy body." You can take some small steps to improve your physical and mental health:

1. Drinking water
2. Taking good nutritious foods
3. Avoiding junk food
4. Avoiding excessive use of mobile phones
5. Spending time with family
6. Taking guidance from your teacher
7. Reading good motivational books, etc.

The understanding of the value of health will bring balance to your life. Start taking these little but effective steps and make your life physically and mentally fit so that you can perform your best in your academic life.

Mr. Akshay Kumar Sharma (TGT - Reasoning)

The Man Who Knew Infinity

This is the story of a mathematical prodigy and his proclivity towards the subject despite having a life of poverty and neglect. His amazing ability to understand messages and meaning lying in numbers and his genius and extraordinary brilliance in number theory and patterns of the numbers brought the focus of the entire world towards India.

The effect that words have on a poet and emotions on a lyricist was the same that the Principles of Mathematics had on S. Ramanujan. According to him—

"Mathematics is not about numbers, equations, computation, or algorithms: it is about understanding."

Let's begin the life story of this legendary being. S. Ramanujan was a largely self-taught pure mathematician hindered by poverty and ill health. His highly original work has considerably enriched number theory. December 22nd is celebrated as National Mathematics Day as he was born on that day in 1887. He lived a short life of only 32 years as he died on April 26, 1920.

We can't control everything that happens to us. But we can control how we respond to things that we can't control.

He is recognized as one of the greatest mathematicians of his time. However, S. Ramanujan had no formal training in math. He used to always write on a slate with chalk, and when one of his friends asked him to write on paper, he replied—"When food is the problem, how can I find money for paper? I may require four reams of paper every month."

"He was the second Indian to be inducted as a fellow of the Royal Society, which is a fellowship of some of the world's most eminent scientists. For him, education was not just a preparation for life; education is life itself.

It is said that the numbers 1-10,000 were his best "personal friends." He could effortlessly tell their factors, divisors, how the numbers can be split, and each part of the number can be squared/cubed, etc., to produce interesting numbers, and much more. One time, G.H. Hardy (professor of mathematics at Cambridge University) was paying a visit to Ramanujan, who was ill and undergoing treatment. Hardy mentioned to him that he rode a taxi cab whose number was 1729. Hardy said to Ramanujan, "The number seems to me rather a dull one." Ramanujan, on this comment, replied, "No, Sir, this is the smallest number expressible as the sum of two cubes in two different ways— $(1)^3 + (12)^3 = 1,729$ and $(9)^3 + (10)^3 = 1729$.

Later, 1729 came to be known as the RAMANUJAN NUMBER. He discovered many other interesting facts, viz. a solution of infinite root equations and the sum of positive numbers is a negative number— $1 + 2 + 3 + 4 + 5 + \dots = -1/12$

It was his insight into algebraic formulae, the transformation of infinite series, and so forth that was amazing. In his short lifetime, he prepared almost 4,000 proofs, identities, conjectures, and equations in pure mathematics. His theta function lies at the heart of string theory in physics. He used to say—

"An equation for me has no meaning unless it represents a thought of GOD.

One more interesting thing about Ramanujan is he discovered so much, and yet he left so much in his garden for other people to discover.

"SUCCESS IS NOT JUST A MEASURE OF HOW BIG YOU CAN DREAM. IT IS ALSO A MEASURE OF HOW MUCH YOU CAN DO."

Mr. Karan Verma (TGT-Maths)

Glory of the Vijayanagar Empire

In the southern land where rivers meet,
Rose a kingdom, strong and sweet.

Vijayanagar, city of light,
Shone like a jewel, dazzling bright.

Temples carved with hands divine,
Stories etched in sacred line.

Hampi's stones still softly say,
Of kings who ruled in a noble way.
Markets bustling, gold and spice,
Music, dance, and arts precise.

A fortress strong, a culture wide,
Glory spread on every side.

Krishnadevaraya, the mighty name,
Warrior, poet, crowned with fame.

Under his reign, the gardens grew,
And wisdom's river ever flew.

Though battles came, and shadows fell,
The tale of Vijayanagar still we tell.

A land of splendour, strength, and song,
Its spirit lives forever strong.

Mr. Saurabh Rajoriya (TGT-Social Science)

जीना इसी का नाम है....

किताबों के पन्नों को पलटते हुए,
कभी मेरी आँखों में भी देखना,
मैं तुम्हें सिर्फ अक्षर नहीं सिखाता,
जीवन का हर अक्षर समझाता हूँ।
कभी गिरोगे गणित के सवाल में,
कभी इतिहास की तारीखों में उलझोगे,
पर असली परीक्षा तो तब होगी,
जब अपनी ही गलतियों से कुछ सीखोगे।
उस सीख से फिर खड़े हो जाना,
क्योंकि जीना इसी का नाम है।
कभी दोस्तों से होगी लड़ाई,
कभी लगेगा कि सबने छोड़ी कलाई,
उस अकेलेपन में खुद को दोस्त बनाना,
अपनी हिम्मत की लौ को जलाए जाना।
फिर मुस्कुराकर सबको गले लगाना,
क्योंकि जीना इसी का नाम है।

कभी मिलेगी वाहवाही, अंकों की सौगात,
कभी निराशा की होगी काली रात,
सफलता को सिर पर न चढ़ने देना,
और असफलता से कभी न टूटने देना।
बस धैर्य से अपना कर्म करते जाना,
क्योंकि जीना इसी का नाम है।

यह दुनिया एक बड़ी सी कक्षा है,
और हर अनुभव एक नया अध्याय है,
मैं तो बस राह दिखाता हूँ तुम्हें,
पर इस रास्ते पर चलना तुम्हारा ही काम है।
हर कदम पर सीखते और सिखाते जाना,
क्योंकि जीना इसी का नाम है।

श्री श्याम पाटीक (TGT-गणित)

The Power Within Me

I am capable - I can try,
I may fall, but I will fly.
Step by step, I learn each day,
Finding strength along the way.

I am calm - like morning light,
Even when things aren't going right.
I take a breath, I close my eyes,
Peace within is my true prize.

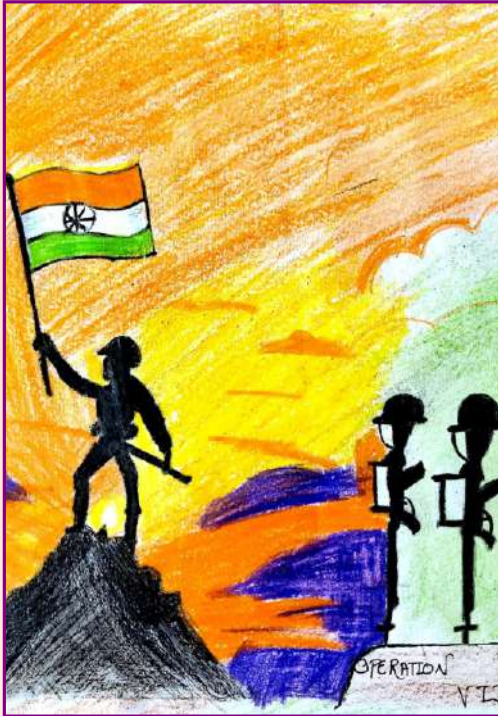

I am focused - eyes ahead,
Dreams alive and fear is dead.
With my heart and mind so clear,
Every goal is drawing near.

So I believe, and so I grow,
Like a river, I gently flow.
Strong and steady, brave and true
There is nothing I can't do.
